👤 PERSONAL STATEMENT

Web developer with 10 years of experience in structuring, developing and implementing interactive websites. Able to complete projects efficiently and satisfy customers with attractive, user-friendly websites. I founded a web company (RESPINAWEB) in 2011 which offered design and development of web-based application systems. I developed more than 90 different kinds of websites. I have developed my own PHP CMS with **Laravel** and **MySql** which could easily generate all kinds of websites. I am committed to having an impact on the future of any company that I work for and possess the enthusiasm and commitment to learn and develop my career within a fast-paced and growing business. Right now I am looking for a suitable opportunity that will not only take my career to the next level but will also allow me to work alongside a very specialized team.
